[Features]

- **Advanced engine protection and LSPI performance**
  API SP / ILSAC GF-6A formulation helps protect modern gasoline engines against wear and low-speed pre-ignition (LSPI).
- **Fuel-saving performance and efficient start-up lubrication**
  SAE 0W-20 viscosity supports oil circulation at start-up and helps reduce internal friction for vehicles requiring this grade.
- **High oil film stability and durability**
  100% synthetic oil formulated to maintain stable lubrication and oil film retention at high engine speeds and temperatures, from daily to sporty driving.
